It's always nice to arrive home to a beautiful, well-designed home. And curb appeal can really add to a home's value. When thinking through your home exterior project, consider:

Neighborhood aesthetic

What will work well on your street?

.....

.....

Your design preference

What style of home do you like?

.....

Materials

Brick

Stone

Stucco

Architectural panels

Colours

Sometimes the biggest impact can come from a change in colors and finding the right combinations

.....

.....

.....

Roof

The roof's primary function is to provide shelter you can count on. But it also defines the architecture and look of a home.....

.....

.....

.....

Flat or sloped roof?

With dormers or without?

Materials

Colour

Windows

Type.....

Size.....

Placement.....

Colour

Proportions.....

Details.....

Outdoor entertaining

Deck.....

Patio.....

Awning.....

Built-in BBQ

Landscaping

.....

.....

.....

Pool

.....

.....

Outdoor storage

.....

.....

Things to consider

Do you have trees on property to protect?

.....

Any right-of-way to avoid?

.....

Any other restrictions?

.....
